Re: SPARE PARTS PRICE REVIEW

Dear Customer

I am writing to inform you that we will be increasing our prices on selected spare parts from 1 May 2013. This is as a result of material cost rises from suppliers, continued unfavourable currency movement and ever increasing transport costs.

However, this increase does not affect all of our spares, and neither is it a uniform rise; we are only increasing individual items as and where absolutely necessary. In particular, we are pleased to advise that we will be holding our gasket prices for the foreseeable future.

You can order your spare parts requirements either online through our website, by email or by fax. Please visit our website www.foster-spares.com, where you will also find service manuals and technical information for your convenience. Please contact our spares team on **01553 780300** or email parts@foster-uk.com for the latest prices.

We thank you for your continued custom and look forward to doing business together in the future.

Yours sincerely
